

REFRIGERATED INCUBATORS

Precision and Technology at your service

FALC introduces its new series of refrigerated incubators ICT-C and ICT-CR, available in 100 and 250 liters capacity.

The LCD Touch Display allows a intuitive and multilingual interface.

Designed for the maximum reliability in applications requiring temperatures below ambient; they are perfect for cell cultures, tissues and microorganisms under controlled conditions.

The working temperature ranges from **0°C to 80°C**, a wide and versatile range that complies with many laboratory requirements.

ICT-C and ICT-CR models offer advanced functionalities thanks to the possibility of setting **customized working programs**.

Equipped with a modern **LCD Touch Display**, they allow a **intuitive and multilingual interface**

(Italian, English, French and Spanish) and a **saving programs function**.

The **key lock** ensures safety and protection, while the **forced ventilation system** ensures an even temperature distribution inside the chamber.

ICT-CR models have the possibility to **set 20 programs with 8 segments**.

Reliability and innovation: the perfect solution for modern and demanding laboratories.
